

**OPTIMAL PERFORMANCE** FOR ATHLETES.  
**SUPERIOR VALUE** FOR OWNERS.

SYSTEM

# A-TURF® SPORTTURF CUSHION

A-Turf® SportTurf Cushion indoor roll-up field with Velcro seams at Coleman Country Day Camp – Merrick, NY.

## OVERVIEW

- Blended (50/50 combination) straight polyethylene & textured nylon fibers.
- Turf adhered to 5 mm foam pad.
- Non-infilled system: dense ¼-inch gauge construction.

## SYSTEM | A-TURF® SPORTTURF CUSHION

The dense nylon root zone gives support that eliminates the need for infill. The ball is carried on top of the fibers, allowing for non-directional ball roll. The playing surface remains constant, year in and year out.
